# Health & wellbeing: Mental health

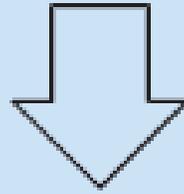

As a school we need to:

- Ensure students are able to manage their mental health before it gets to the point where they get to crisis point
- Talk openly about mental health in the same way we would talk about physical health
- Teach how exercise, sleep and diet impact out mental health as much as our physical health

Most importantly: It's about helping our students make informed decisions about how they can help themselves

## Health & wellbeing: Physical health

**The prevalence of obesity in Year 6 children decreased**

**from 23.4% in 2021/22 to 22.7% in 2022/23**

This is still higher than in 2018/19 and 2019/20

# Health & wellbeing: Physical health

- We need to help students understand what their body needs to function effectively
- Students need to understand the reality of the consequences of not giving their body what it needs to be healthy

Most importantly: It's about helping our students make informed decisions now they are at the age they have more freedom to make their own choices

# HT6 Finance & careers

# Statutory requirements

Money (Citizenship programme of study):

- Students are equipped with the skills to enable them to manage their money on a day-to-day basis, and plan for future financial needs.

Careers skills (Careers framework)

- Skills delivered in My World link closely to the statutory careers framework which was covered in a November session

## Headlines

# Only 2/5 young adults are financially literate

May 15, 2023 | No Comments

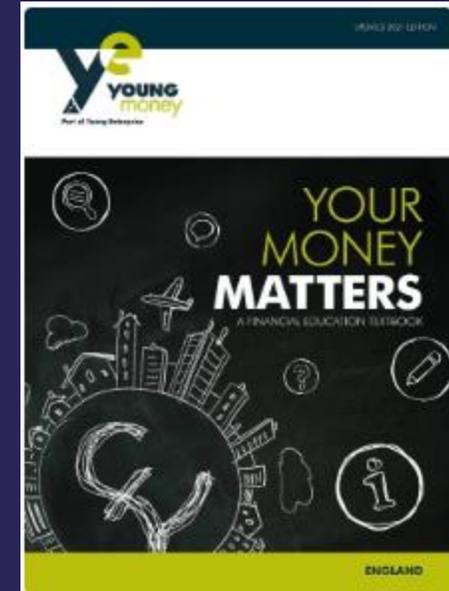

The Money and Pensions Service (MaPS) estimates from its findings that around 5.4 million children across the UK do not have the money skills they will need in adulthood.

# HT6: Finance & Careers

Y7	Y8	Y9	Y10
Intro & functions of money			
Risks & consequences of financial decisions			
Work skills: Resilience			
Work skills: Problem solving			

# Why teach careers skills & money?

## Money

- Prepare students for managing their money as adults
- Help them to make informed choices
- The reality of the difference between their salary amount and the what they actually 'take home'
- The reality of living on their own

## Careers skills:

- Students need to understand the soft skills required for the workplace
- They need to see how they practice these skills across the range of subjects they study so can see their relevance
